Summary

Final Year B.E. CSE student with strong interest in Cloud Computing and DevOps, along with knowledge of web development and AI-powered application development. Developed projects independently and collaboratively, and participated in SIH 2025. Seeking a Cloud and DevOps role to contribute to real-world engineering teams.

Education

Bachelor of Engineering in Computer Science — **Aug 2023 – Present**
Sri Ramakrishna Institute of Technology , Coimbatore. — CGPA : **8.050**

Senior Secondary(Class 12) – State Board — **May 2022 – Mar 2023**
Komarasamy Gounder Matric Hr Sec School , Nambiyur. — Percentage : **86**

Projects

Personal Portfolio Website

- Built using HTML, CSS, and JavaScript – developed a responsive portfolio site with a clean UI , deployed on GitHub Pages
- Implemented modern design for better user engagement and maintained as an active online professional presence

AI Sales Analytics Agent

- Built using Python, Gemini API, Pandas and Flask – developed an AI-powered agent using the Gemini API enabling natural language queries on sales data for instant insights.
- Reduced manual reporting effort by 70 – 80 % through real-time intelligent analysis of business performance and trends.

Experience

Data Science Intern , LitzTech — **9 Jun - 23 Jun 2025**

- Performed exploratory data analysis on structured datasets using Python(Pandas , NumPy) to identify patterns and summarize key business metrics.
- Assisted in data cleaning and preprocessing pipeline , improving dataset quality for downstream analysis.
- Collaborated with cross-functional team to deliver an analytical report on business trends with the internship timeline.

Skills

Languages : C , C++ , Python , HTML , CSS , JavaScript
Frameworks & Libraries : Flask , Pandas , NumPy
Databases : MongoDB , MySQL
Cloud & DevOps : AWS(EC2, S3, IAM), Git, GitHub
Tools & Platforms : VS Code
Concepts : Data Structures & Algorithms , REST APIs , Object-Oriented Programming

Achievements

- **Smart India Hackathon(SIH) 2025 –** Won 1st Prize at the College Level as part of a team ; developed a real time Bus Tracking System and selected among all college teams for submission to the national round.
- **Hackathon Participation –** Actively participated in multiple technical hackathons including the Cognizant Hackathon , gaining exposure to competitive problem-solving and team based development.

Certificates

AWS Skill Builder : AWS Cloud Practitioner Essentials.
NPTEL : Design Thinking - A Premier (Elite + Silver) , Google Cloud Computing
Workshops : Collaborative Robotics.
